

## NOTICE - MISSING PERSON

### **Hugh David Bower (DOB 30<sup>th</sup> August 1920)**

Missing 101 year old elderly man – one of the last remaining World War 2 Australian Air Force veterans

#### **No one has the right to stop family members from saying goodbye to one another**

Second wife Linn (Edwena) Bower complicit with Dr Bill Geyer from Tanunda Medical Centre ABN 67 439 493 733 refuse to provide Hugh Bower's daughter Stephanie Botten with data relating to guardianship or the whereabouts of her elderly hospitalized father, allegedly under doctor/patient medical confidentiality which has NO relevance to the location of the hospital Hugh resides in.

**Crown Jurisdiction:** Let no person dare to allege to have superior jurisdiction.

- 1) Second wife Linn (Edwena) Bower is advised that in regard to matters pertaining to Hugh Bower, there has been a 100% failure in compassion or lawful due process and this matter is under full INVESTIGATION for such failings.
- 2) A 12 peer jury is on standby to process the individuals complicit in this missing person situation.
- 3) Refusal to provide any documentation on guardianship and failure to provide an environment whereby the claimants can prove their alleged right under doctor/patient confidentiality to refuse access to a daughter's dying father, that being second wife Linn (Edwena) Bower, before an unbiased adjudicator, is a failure in lawful due process. An absolute basic and essential in law. Or it is tyranny, persecution of the elderly and total amoral and unconscionable destruction of family?
- 4) Further, failure to provide an environment whereby Hugh Bower's daughter, Stephanie and her progeny can declare their right to see Hugh, who we are led to believe from the email is dying, while standing in Crown jurisdiction, ignored by second wife Linn Bower, is also an abhorrent failure in lawful due process, rendering Linn Bower complicit in causing serious injury and harm to Hugh Bower's biological family by failing to allow them to provide Hugh the much needed opportunity to experience the connection and unconditional love his family have for him. Let's just call it what it is shall we. Inhumanity, unethical deceit and cruelty beyond measure. That's why we have LAW.
- 5) Only notification - Stephanie Botten's sister received an email:

**On 22 Dec 2021, at 4:14 pm, Edwena Bower <[edwena.bower@gmail.com](mailto:edwena.bower@gmail.com)> wrote:**

>>

>> **At all times I have respected Hugh's wishes.**

>>

>> **At the moment he is in hospital, 1 nominated visitor per admission is in force.**

Neither Stephanie or her sister have been notified as to the whereabouts of their elderly father Hugh Bower. The email to Stephanie's sister states that Hugh Bower has been hospitalised but no location is given. **This is an absurdity in law.** Hugh Bower is a father, grandfather and great grandfather. **Bloodline is the highest jurisdiction in law.** It is higher than any alleged jurisdiction

from a private corporate institution or a private person. This is a violation of human rights and the violation of the Rule of Law.

**No one has the right to stop family members from saying goodbye to one another**

- 6) All complicit parties are under full investigation. Occupations are absolutely suspended and assets frozen. Dr Geyer and the private corporate medical and legal fraternity have ZERO jurisdiction in the affairs of Hugh Bower and his biological family. This is clear and has been ignored. The Rule of Law has been ignored
- 7) You are instructed to inform Stephanie of her father Hugh Bower's whereabouts immediately. You are cautioned, offending parties are absolutely facing jail sentences for these crimes. Prompt information on the location of Hugh will be viewed favourably but if Hugh passes away without family access the offending parties will be held 100% personally & financially liable and accountable.
- 8) All overseeing governing bodies, within the private legal system of the private BAR Guild and within the governing medical bodies have been contacted.
