Hi Cindy

Thanks for your correspondence regarding SGM vaccine mandate policy.

Whilst I am not refusing the covid vaccine there are many considerations to be made before committing to an experimental medical procedure.

I also request the following information be provided to aid in my decision moving forward.

1. Can you confirm SGM has carried out a risk assessment that a unvaccinated person is a threat and poses more risk than a vaccinated person?
2. Can SGM provide substantial scientific evidence to prove vaccines are safe, effective and necessary?

Thanks

Darren Ball
