19.The AI pigsty:

20. Attempt to enter account via new computer. Receive a message in red that says 'Invalid session IP'. No instructions to remedy it.
21. Go to old computer. Despite not changing my password, it does not recognise the password and locks the account.
22. Have 2+ years of consistent payments on direct debit.
23. Begin receiving multiple phone calls from an AI, and txt messages from Optus.
24. I attempt to find out what is going on. Have 1 hour message session on app on Saturday eve at 2am. Consultant is useless, constantly talking about my frustration whilst creating zero remedy.
25. Cannot leave app and do anything else, as have to log in every time I come back to it. Time waster.
26. Wake up Monday morning to find phone has restrictions. Again attempt app. Consultant useless.
27. Despite logging in to the app, I am given another form to fill in.
