 - i) **Apologies if these writings does violate your version of reality.**

5. Orders are written in **blue**
6. They will be at the end of the reading. I will drop the screen share, to display the gallery.

7. You will need to vote by raising your hand to one of 3 options offered.
8. Vote either yes, or no, or choose to not vote.
9. We will have minimum disruptions in this Grand Jury so as not to break the frequency. Therefore, I will guide the majority of the proceedings.
10. After the reading and voting is complete, we will open the room for approximately 30 minutes for discussion, contribution, suggestion.
11. All progressive viewpoints are valuable as we craft into the Age of Aquarius.

12. What are the **portals** we are accessing in this Grand Jury?
 - i. The energetic astrological alignment of portals; is the mechanics of Creation.
 - ii. This is the map of Consciousness.
 - iii. This is the psychology of humanity.
 - iv. Humanity is the embodiment and witness of Source.
 - v. Humanity is the most advanced witness of Source due to it's organs, it's 3rd dimensional existence and it's acumen for emotional intelligence. It is a blueprint that has evolved over billions of years.
 - vi. The 3rd dimension is not to escape, as many say we are moving to the 5th dimension.
 - vii. Matter does not exist in the 5th dimension. But the art of Creation does.
 - viii. One must marry the art of Creation in the 5th, to the best 3rd dimensional experience possible.
 - ix. That means you must recognise yourself as a **fractal** of Source Creation, travelling through all dimensions to arrive here, on Planet Earth, blessed with a body. That is a big deal.

- x. To do that, you must have **the awareness that you are the Source Creator** in a human suit having a 3rd dimensional experience and in that recognition, you are already accessing the 5th dimension. That is the Awakening.

- xi. **Caveat:** There is an entity/s, that for most, until now, has intercepted that awareness. It has existed in the 4th dimension. Placing itself as curator of your experience of Source. Alleging that you can only reach Source if you go through it. ie the external church. Distorting the perception of reality. Harvesting the energy from the terror of that distortion. Using the energy to advance itself.

So you have been disadvantaged. But only you can stop that, by changing your awareness and accessing the inherent Laws. Creator Source is within.

- xii. This particular portal is a full moon axis.
- xiii. A full moon portal is Sun and Moon 180 degrees apart, thus creating a tension point in 'how do I balance my internal sense of safety, with the construct of the outside world'?
- xiv. This full moon is on the Relationships axis.
- xv. Sun in Aries - I AM, Moon in Libra - I BALANCE.
- xvi. How are the needs of my inner world - Moon - my sense of **safety and joy**, met by the administration of the outer world - Sun.

- xvii. It is fair to say humanity has been existing in a state of terror for the past two years? This is a very low vibrational frequency that is feasted upon by other entities for their own advancement.
- xviii. And terror for centuries prior to that.
- xix. Thus indicating massive unspent potential to correct this quality of outcome.
- xx. We are at the **first portal** of a new Sun cycle.
- xxi. That portal is Aries Sun.
- xxii. The Sun defines our outward sense of identity.
- xxiii. Who we are in the tribe?
- xxiv. What do we turn up to do in service for the tribe?
- xxv. How do we conduct ourselves in a public arena?
- xxvi. What do we choose to recognise our sense of identity as?
- xxvii. How do we manage the resources in balance and not harm each other or Mother Earth.
- xxviii. Therefore this portal has significant unspent potential to anchor in our definition of **Who Am I? - Aries - I AM** - the hunter, warrior, and how we conduct ourselves, using inherent Laws and Rights - **Libra, I BALANCE** - law, harmonious relations: to upgrade our planetary systems for the advancement of humanity.
- xxix. At the beginning of this Sun cycle of 365 days, this is an important footing to put into place.
- xxx. This cycle sits inside many larger cycles.
- xxxi. Including Pluto completing it's transit through Capricorn. This transit began 2008 at the 'beginning of the end' of the privately owned Rothschilds fiat

financial system and a source of power and control of the planet. That system officially ended March 31st 2022.

Thus, Pluto blew up the power structure as if defied inherent natural law. It was a system of slavery. Now at 28.33 degrees of Capricorn, Pluto completes this transit in January 2023. And enters Aquarius, where is will further overhaul humanity.

xxxii. What does that look like?

xxxiii. Who is navigating that?

xxxiv. We are. Humanity. Thank you for attending today.

xxxv. Pluto is also in it's 3rd trimester of return from the Magna Carta 1215, in which 'All Are Equal Before The Law' was recognised. Thus we birth this new Age.

xxxvi. The COVID landscape has served to show us that we have existed in a landscape where all were NOT equal before the law. Thus, is has been a tool of **Awakening the Awareness.**

xxxvii. And in galactic cycles, we are at the beginning of the Age of Aquarius, of some 2000 years. The powerful and important awareness to have for this Age is:

I Am Source Creator.

xxxviii. Therefore, the denial of free will and inform Consent represents slavery.

Until now, Planet Earth has only been one of slavery.

xxxix. We can change that now, with Awareness.

13. Seeding

- i) We are seeding the most essential awareness required now, that is, to create from the highest vibrational frequency available. To draw witness to **I AM that I AM.** Aries. The first in a fresh Sun cycle. And we will map throughout the next 12 months.
- ii) And that inherent Laws exist to protect all of us and Mother Earth.
Libra. I BALANCE.
- iii) These inherent Laws are not created by humanity. They are witnessed, and then used, by humanity.
- iv) By those who have eyes to see, and ears to hear.
- v) They are the guiding light. The narrow and well lit path.
- vi) They are the map of Consciousness.
- vii) Everyone enjoys a map when they are on a journey. It avoids getting lost in the woods, perhaps never to be seen again.
- viii) As we continue to morph into the Age of Aquarius, it is an Age of recognising **the Self, as the Source Creator.**
- ix) That is it's goal. And if we recognise that, we are in the Love frequency of Planet Earth. Planet Heart.
- x) We inherently extend a 'do no harm' code of conduct, for we recognise **'You are I, and I am you'. We are all fractals of the Source Creator.**
- xi) It is a powerful Age, to advance not only humanity, but our Mother Earth, of which we are an 'organ' of.
- xii) We are not in charge or control of our Mother Earth. Only in service to her, as an element of the the galactic mind.

- xiii) She is a sentient Being in her own right.
- xiv) She is part of the macrocosm.
- xv) She has the capacity, in a multitude of ways, to wipe out humanity if it has becomes a mere rash upon her surface.
- xvi) As part of the galaxy, Mother Earth is part of our Collective Consciousness.
- xvii) She is largely a Love frequency.
- xviii) And yet we have lived on a planet of perpetual war.

14. End of an Age

- i) We must begin with a strong understanding of what we are doing, and not just bumble around, fighting with an empire that has now ended.
- ii) That empire was The Age of Guardianship.
- iii) The Age of Pisces.
- iv) The incarceration of Consciousness, of humanity, within the confines of Papal Bulls, spellbound without knowledge or consent, upon the free will of humanity.
- v) Despite the grounds of the Vatican being laid out as a key, it was not the key to freedom. Instead it's key unlocked the door to the '**legal fiction**'. To the world of 'persons', 'Acts in a play', debt slavery, First Nation genocide, and gross mis-administration of the primary elements: Water, Air, Earth and Fire.
- vi) Without correct administration of these primary elements, humanity renders itself useless and incompetent, and positions itself for a de-population agenda,

as has been the past two years.

15. The Key to Freedom

- i) The real key to freedom is **the knowledge that you are Source Creator.**
- ii) Incarnate in a 3rd dimensional reality. Blessed with the opportunity, due to the geometry of your body and organs, your Divine temple of the Spirit, to experience love, food, shelter, and all matters tangible and intangible that come with a life upon the Earthly plane of reality.
- iii) Scarcity is a 100% fraudulent concept. It is up to humanity to terminate this concept. And to move all systems into abundance management.
- iv) Individually, each of us is the densest form of energy, creating matter, in our own individual energetic alignment - your own personal birth chart, having an experience of Source, witnessing itself.
- v) You are a recorder of information.
- vi) You are the driver behind the wheel.
- vii) Life is not happening to you.
- viii) You are creating Life based on your choices and your belief systems.
- ix) Without being anchored in the knowing of the highest frequency of **Source Creator**, we may as well build a house on a mudslide, and merely hope for the best.

16. Awareness

- i) This Grand Jury is not like previous Grand Jury's.

- ii) We will understand the geometry of Creation in order to seed new standards.
- iii) We will grant ourselves **permission** to vibrate at the highest frequency of Creation, before we issue any new codes of conduct.
- iv) Again, I ask that you suspend your version of reality for the duration of this Grand Jury, so that we may seed a new, powerful, but fundamental awareness.
- v) An awareness that will serve you.
- vi) And you will go out into the environment and emanate this awareness.
- vii) And for those who vibrate accordingly, you will find new resonance with others.
- viii) You will be the Source of evolution; because you are carrying the map of the directions to Peace and Prosperity for all.
- ix) And in this way, we change the landscape of our reality to be in alignment with the natural laws of **Source Creation**.
- x) If you have made it here, on this weekend, consider yourself blessed.
- xi) Because just as our landscape is full of chocolate eggs this weekend, an egg being a symbol of creation, this is a time where the Sun is in a new cycle, which begins with Aries - the hunter warrior. The first glyph off the collective. The first point of focus for survival. Survival of what landscape?
- xii) And so you stand in a position to **seed** the creation of this new Sun cycle. And not simply be on the receiving end of someone else's version of creation.
- xiii) For in these rituals, such as Easter, you are constantly being fed a version of reality.
- xiv) But has it served you?

- xv) Are you happy?
- xvi) Have you seen law and equity over the past 2 years?
- xvii) If you had ears to hear, did you hear that we are in a depopulation agenda.
- xviii) If you had eyes to see, have you seen the death and injury count? So far.

- xix) Why are you here?
- xx) Who are you?
- xxi) What is happening on Planet Earth, and why?

- 17. What is the Master Quest? That you are Source Creator having a human experience.
- 18. And as part of that human experience, you are also a collective, serving Mother Earth and assisting her to evolve into higher awareness by servicing her needs of physical survival, which are our needs, within the Natural Laws of sow and reap.
- 19. That we responsibly manage water, and not pollute it. Minerals and not excessively mine them. Air and not chem trail it. And fire, that we do not use it to recklessly destroy, nor fashion our intent to harm.
- 20. And through these elements we get to experience the 5th element - Spirit.
- 21. The Divine. The Creator. The Source.
- 22. Through your life in this body, on this Mother Earth, you get to witness yourself, the Creator.
- 23. **Or not.**

24. Just as we have a micro-biome within us, we have a macro-biome beyond us. The planets are the macro-biome. They are energy fields of creation, all working in a geometric harmony to craft us as individual versions of their inter-relationships.
25. We become: the manifestation of the Source Creator in a particular geometric pattern of expression.
26. Your individual birth chart is your map, of the unique pathways of energies you were born into to represent Source Creator, at that moment in time. Be it good or bad, happy or unhappy, blessed or burdened. It is your quest to master your own birth chart and ***witness Source*** in your brief journey here on Mother Earth, in this particular body.
27. That is the quest of existence.
28. That is what the 3d dimension of life on Planet Earth is all about.
29. That is what the Age of Aquarius is about.
30. This new Age that we enter.
31. As we leave the Age of Pisces, the age of Guardianship; where you were allowed to be lazy, dumbed down, managed by the Guardians. The Vatican and its master trust of Unum Sanctum. The priesthood, telling you what God is and is not. Scaring you into believing what you needed to do and not do to please God.
32. Just as an infected microbiome will make us unwell, an infected macro-biome will make the planet unwell.
33. Currently, as Mother Earth evolves to witness herself, to grow awareness of herself, she is aware that she is infected.

34. With a species living on the surface of herself, that does not care for her. She has a rash, a persistent itch of uneasiness, that is making her unwell. This rash dirties her waters, dries up her rivers, absorbs more resources that it really requires, mines her beloved minerals, that shape the waters, that craft the Consciousness. This rash fills the airs with toxic chem trails, it lights fires and burns billions of her garden keepers, the animals and insects and soil microbes. This rash incarcerates it's own, and causes a perpetual weeping on a planet that is the Heart Chakra. **The Love Planet.**

35. Eart(h) = (H)eart

36. But this too, has been inverted. To confuse, to misdirect.
37. Has Mother Earth decided that the current version of humanity does not serve her wellbeing? Yes.
38. Is she happy to cast off what is a large layer of unconscious beings, feasting upon the resources whilst actively failing to be aware of the misuse of the resources. Yes.
39. Where does that bring us to?
40. Ultimately: what are we trying to achieve? Awareness of Source Creator .
41. For Source to witness itself.
42. We are Source.
43. In the 3rd dimension of matter.

Orders:

1. **Order #1:** Can you acknowledge that you are Source Creator in a human suit, experiencing the art of Creation?
 1. **What say you ?**
 2. **UNANIMOUS YES**

2. **Order #2** If we are each a fractal of Source Creator, do you agree that 'do no harm' is the most important starting point?
 1. **What say you ?**
 2. **UNANIMOUS YES**

3. **Order #3** And should injury occur, do you agree that the standards of 'Rule of Law, All Are Equal Before the Law' is the standard to be adhered to. This includes a lawful due process of the claimant must prove their claim and the defendant has the right to be heard, and the matter is to be assessed by an independent jury.
 1. **What say you ?**
 2. **UNANIMOUS YES**

4. **Order #4** In Grand Jury 7, we established that multiple jurisdictions naturally exist. The attempt for one artificial jurisdiction, the 'legal fiction' private BAR Guild, to rule them all, has proven to be a disaster of untold misery by First

Nations who have lost their natural management of resources, their language, their culture, their bloodlines, and exist in generational trauma.

Do you agree that multiple jurisdictions naturally exist, and have the right to conduct their customary business, whilst also practicing a 'do no harm' policy.

1. **What say you ?**

2. **UNANIMOUS YES**

5. **Order #5** And should matters come before a court environment, that all jurisdictions must be equally represented on the jury.

1. **What say you ?**

2. **UNANIMOUS YES**

6. **Order #6** As we move from an era of writing **petitions** - *Meaning "formal written request to a superior (earthly)" is attested from early 15c.* Thus we have foolishly assigned our public servants the role of 'superior', can we agree that an environment such as this Grand Jury process, can be a forum for matters to come before the People where **permission** must be formally granted, or not, by the People?

1. **What say you ?**

2. **UNANIMOUS YES**

7. **Order #7** Further to Order 6: In the matter of The World Health Organisation wanting to impose a global health standard based in the synthetic health management we have witnessed over the past 2 years, do you agree, that an artificial entity, such as the WHO could have no authority to impose such a practice, and must seek **permission from the People?** And must be wholly accountable to that gazetted decision.
 1. **What say you ?**
 2. **UNANIMOUS YES**

8. **Order #8** In the coming election, is it recognised that
 1. The Commonwealth of Australia Constitution Act 1901 has not been operating since at least 1973. Due to changes made to it by Whitlam without a referendum. And has not been taught in schools since 1975.
 2. That the 1901 Australian Constitution did not provide for First Nation People, nor do they desire for it, and still fails them to this day in terms of equitable use of resources.
 3. And therefore, an election has no instrument for the elected to sit in. Therefore, a May election has no standing in Law.
