over them.

6. This Fourth Grand Jury, is again, the Voice, the Will, and the consent, or non consent; of We The People.
7. Therefore there is no higher jurisdiction on Planet Earth than this voice of; We The People.
8. This communication is the voice, and choice, of The People, who have gathered, under Crown Jurisdiction, Customary Lore, Rule of Law: All Are Equal Before the Law: via a Grand Jury, to again, dismiss the directives of what is deemed to be a government that fails in Lore/Law. And is in fact a private, foreign, globalist, corporation
9. Free will and informed consent are the primary pillars of a free society, without these, we have slavery.
10. Indeed, we are currently without them, we are thus a national community in slavery; using our valuable resources to dispute conduct by public servants, it's trickle down effect into industry, and unidentifiable militia.

Matter # 1:

11. The public servant sector does perpetuate an **alleged authority** to mandate an mRNA bioweapon upon the bodies of the people.

What say you ? Do you agree humanity in Australia is currently managed as a slave system? And must be meticulously redefined?

1. **UNANIMOUS YES.**

Matter # 2:

12. In the mechanics of the slave system, we may refer to the following example of Stirling Council Notice, Western Australia.

Dear valued Provider,

To ensure compliance with the Mandatory Vaccination Policy for WA Workers we are seeking confirmation from our Providers of compliance with the Directions issued.

Please confirm that you will comply with all applicable Commonwealth and State public health legislation (including all orders and directions) relating to the mandatory vaccination of workers, including any requirement to collect, maintain and produce records of workers' vaccination status.

Please provide confirmation of your organisation's compliance as soon as possible, and by 5pm 30 December 2021, via the online registration form here:

If you have any queries please contact vaccinesuppliers@stirling.wa.gov.au

13. And we reply to that with the following:

There is no such thing as 'mandatory' access to the body as that defies the primary principles of Law/Lore, specifically the need to acquire **free**

will and informed consent for such a procedure, at all times.

You will be aware also, that the vaccination/bioweapon is a privately owned, profit generating, mRNA business model. It is highly dangerous; causing injury and death. The promotion of this in our communities by our Local Councils; that is, our public servants, paid on the public purse, is an **absurdity in law**, and is therefore **Null and Void**.

We The People are not 'workers'. We are community.

We the People are not 'our Providers' of the Stirling Council. The Stirling Council is the public servant of the People and is 100% answerable to We The People.

Confirmation is voluntary, or that would defy **free will and informed consent**. Thus, that would be slavery. Criminal code 270. 25 years jail.

The Australian Government is a private corporation. It has zero authority. 'Orders and directives' are not law/lore and 'mandatory' does not exist.

Local Councils do not come under the Commonwealth and State legislation. Local Council is under Customary Lore Jurisdiction. It is the authority of the local tribes who assert direction. Including any requirement to collect, maintain and produce records of workers' vaccination status. The tribes have not, and will not, be issuing any such instruction, they being a nature based culture, of natural wholistic health in an integrated ecosystem of harmony and balance. Introducing such bioweapon chemical cocktails to the body temple, is an acute act of stupidity coupled with desire to control.

We The People, are not a free administrative team and distribution arm for the privately owned, profit generating, bioweapon industry. This is an absurdity in law/lore. And is thus **Null and Void**.

Any Harm, or Injury, brought to individual businesses due to failure to comply will be addressed for damages at \$10 000 per day, per public servant, for lost productivity, for each day trade is interrupted by the private agenda of the private bio weapon industry, using the People's

public servant sector to attempt to secure a free distribution arm by coercing, blackmailing, dismissing and threatening the People. This is an absurdity in law/lore.

'If you have any queries please

Who is vaccine suppliers? - An arm of the privately owned, profit generating bioweapon manufacture industry, issuing directives to the People. We can't hear you, nor recognise you as any authority. We The People do not care what you say or want. Your profit generating, control agenda is of no interest to us, We The People. Thank you for your attempts to enslave humanity. It is wholly rejected. 1. UNANIMOUS YES.

Matter # 3:

14. Industry is called to attention, to cease all dialogues regarding vaccination mandates. Such mandates have no basis in Rule of Law: All Are Equal Before The Law, and are an act of slavery. Caution is raised; that inflicting such alleged 'mandates' on team members does position the individual of that organisation to be 100% liable and accountable for their action on behalf of their organisation, and in exchange for their pay check. There is no such thing as Corporate Immunity. That is a legal fiction and does not exist in Law.
15. All contracts related to the vaccination suppliers and the Australian Government, are inherently **Null and Void**, as such contracts do include the use of the body of individual Australians for which no free will and informed consent was asked for, nor given. This is 100% slavery.

What say you ? All contracts are Null and Void ?

Matter # 4:

16. Other matters of the Fourth Australian Grand Jury is the success of the return of Takara Markwell, taken by Department of Child Protection in South Australia via a failure of **lawful due process**. That is; the child is taken before **a)** a hearing before a competent court has occurred. Before **b)** the claimant has been made to prove their claim. And **c)** before the accused has had the opportunity to rebut the claims. Thus, without this lawful process, the matter becomes one of slavery, coupled with kidnap and hostage.

This is a massive industry, with teams of public servants all dipping into the public purse to maintain separation of children from parents.

Donna Markwell joined us in the Third Grand Jury to discuss her case. We welcome Donna Markwell back, to share briefly with us the 37 day day trauma of having her 14 year old daughter removed from her. With

no communication for 17 days. And the success of the tools used to have the court reverse the orders in their entirety. This is Lore/Law.

This does not however remedy the trauma imposed on her family and extended family.

There are currently 25 000 children in foster care. 18 000 of them are Indigenous children.

What say you? Do we vow to always ensure lawful due process has been facilitated. a), b), c). We also have Community Audit Teams developing. CAT's. To oversee process and outcomes.

coming Jury's this ruling from 2007, will have been rewritten as Customary Lore, and critical land resources reassigned to the correct management and jurisdiction. We welcome Koora to speak on this matter.

What say you? Do we agree this critical resource of land use and management has been misappropriated, needs to be correctly reassigned, and is indicative of the entire land mass of Australia, which has been rezoned without care of First Nation heritage? We draw appreciation that this is a big subject and discussions are already well under way to design a future that serves all of the Australian People, not just an elite few.

This is AI out of control.

This is what happens when Community is asleep on the job.

This will result in corporations being bankrupted due to damages, moving resources into the administration of the trustees, ANTIC, and prevent the loss of critical resources like mine sites and hospitals etc, to an equivalent of a private corporation resources grab, of community resources. ie the bioweapon industry.

This sends a clear message that if corporations believe they can hide behind corporate immunity, employ individuals to do their dirty work and snatch the resources, that we, as a Community, are standing by to prevent such gross failures in lore/law, resulting in the misplacement of critical community custodial resources, into private hands.

What say you? Should every Australian, who has lost their job for choosing not to have a privately owned, profit generating, mRNA bioweapon injected into their body temple, be free to assign damages for the dispersion of such lawless conduct?
