2.1. It is recognised, one of the most important documents of our time is the newly available Creditor Ledger, authorised by this Grand Jury for use, by all who choose to use it, to make payment for all Inherent Right to Resources, via the 'set-off' process, which is to balance the alleged debt, also known as a Record of Resource Use (RoRU), against the Creditor Ledger.

2.2. It is recognised that the creation and use of the Birth Certificate, coupled with putting Humanity under Guardianship; as being the source of alleged 'authority' to monetise Humanity and create **Essential Resources Distribution Facilitators (ERDF)** - such as Water Corporations and power suppliers. And then charge Humanity a second time for Use, as an alleged 'customer'.

2.3. This is slavery. :

2.4. Thus the Creditor Ledger allows us

2.4.1. to not be in debt upon our own Planet.

2.4.2. to not be working to pay for resources we already own,

2.4.3. And have already paid for

10.4.This is used to hide the corrupt proceedings of the Family Court: an illegitimate enterprise and is therefore **Null and Void**.

10.5.There is freedom to publish and discuss Family Court matters as a method of exposing the Family court for the pain and suffering it inflicts by either the State taking the child, or the child is given to a toxic parent.

10.9.Freedom to publish and discuss Family Court matters is now available.

10.10.Unanimous Yes.

11.Order #11 Independent Children's Lawyer

11.1.The Independent Children's Lawyer is an absurd role created by the government to render an additional voice to an already complex matter.

11.2.The Name itself is deceptive, because the ICL is paid on the Public Purse, so it is hardly independent.

11.5.What say you Jurors?

11.6.Unanimous Yes.

13.Order #13. For every day that a SMART chip is in the metre, after a request for removal has been made.

13.1. Western Power et al, coupled with the accounting arm, Synergy et al, in Western Australia and by similar in every other State and Territory, also recognised as Australia wide, and all meters, are responsible for removing chips in SMART meters, if it has been requested.

13.5.Failure to remove chips upon request, if denied, invites a daily damages charge of \$1000 until it is removed.

14.Order #14. The complaints game

14.1.Because Synergy and Western Power, and providers in other States, deem us to be their '**customer**', when in fact we are the **Custodians of the Resources**, they believe they can process all communications as a 'customer complaint.

14.2.Even when being given instructions by the Executor and Beneficiary, they still process matters as a complaint.

14.3.The dialogues in these areas are nothing short of 'bizarre' as front end employees try to play out the **script** they have been given as part of the AI framework.

14.4.The front end employees are particularly dumbed down.

14.5.These ERDF's have built an entirely fictional construct around harvesting the resources for profit, whilst tying up the lives of Humanity to generate \$\$ to pay for resources that we are the Custodians of and have authority over.

14.6.The deeper the Independent Audit and Investigation goes, the deeper we see this twisted framework unfold.

14.7. This resource sector lives in a wholly delusional construct that it flows out through young front end employees who say anything, and do anything for their paycheck.

14.8. This system is operating as a menace and will be reconstructed by these Orders and the correct representation of the parties at the table.

14.9. The People are the Custodians and the government is a public servants.

14.10. We are not the customers.

14.11. We do not pay a second time for our resources.

14.12. What say you Jurors?

14.13. Unanimous Yes.

15.2. However its sales team is in the form of Police generating random infringement Notices which then triggers off the Circuit Court process that goes on and on and on with all parties being paid every time an individual has to turn up for one of the hearings.

15.3. Including paying at times 6 or more Police to sit around all day in a court for a 30 minute 'witness' appearance.

15.4. This Court and Judicial process is long, cumbersome, and without capacity to authenticate its alleged jurisdiction.

15.5. This system is old, obsolete and will be replaced by Common Law Courts.

15.6. At any time a matter may be moved to a Common Law Court for a swift outcome of matters.

16.1. There is a considerable team of individuals working to bring

Rule of Law: All Are Equal Before The Law to the table in this

class based system which is free to cease operating at any time,

by moving the Board of the Guardians into the role of the Trustee.

16.2. Our time is not free to continually correct a corrupted system.

17.2.In the matter of Kenny Newland, it has been seen that the Public Trustee has hold over his assets, including his humble Centrelink payment.

17.3.But does not have any capacity to deal with his accommodation.

17.4.To not have charge over your own limited funds, and to then end up in jail, is a matter of gross incompetence on behalf of the Public Trustee and it is called to attention as to what real function it serves other than to create further disfunction.

17.5.The Public Trustee is given instruction to either oversee the whole lifestyle of the individual or to not touch the funds at all.
