30 hours later, no reply to serious business. = Incompetent.

Australia says **'NO'** to the stupid lawless health treaty proposed by the World Health Organisation. The WHO delivered to you, the People, the Covid19 depopulation agenda, and has on it's website that the bioweapons - that it likes to call 'vaccines', have no record of harm.

Despite hundreds of thousands of records of horrific harm and death.

The World Health Organisation is a psychopath in our global community, spreading misinformation and a depopulation agenda.

Australia is not part of the United Nations, because it forgot to ask the People, via a referendum. Oops. Small oversight.

Australia does not have a functioning Constitution. It was never ratified, and even if it was, Whitlam killed it in 1973.

We are moving into a New Age of Law, and shutting down legal fiction rubbish.

Ridiculous quotes from the WHO media release :

<https://www.who.int/news/item/24-05-2022-world-health-assembly-agrees-historic-decision-to-sustainably-finance-who>

'More predictable and sustainable funding for WHO makes economic sense for the Organization's contributors, with its new investment case 'A Healthy Return' showing that every US dollar invested in WHO delivers a return on investment of at least 35 US dollars.'

It's all about the money and nothing to do with your health.

And this one:

"This decision addresses head-on the decades-long challenge WHO has faced on predictable, flexible and sustainable funding. Delivering on the target they have agreed today will mean our Member States are empowering WHO to meet their expectations and truly fulfill our mandate as the world's leading global health authority."

Ridiculous. There is no such thing as a global health authority. This claim, constitutes such a level of stupidity, and absurdity, it highlights the WHO as nothing more than a playground for egos and power mongering with big pay cheques.

Health lives with nature, intuition and healthy lifestyle of a given region. A one size fits all is an exercise in ignorance and stupidity.

Does the WHO think the good People of Terra Australis will be contributing to their fat pay cheques.

NO THANKS.

Hi there,

Please make contact to further communications regarding the proposed Health Treaty.

Australia says NO to lawless concepts such as this.

The website is a pigsty with no contact details for anyone in Australia.

I have further formal reply for WHO, with the response from We The People, already publicly gazetted. No thanks, an absurdity in Law.

Time of reply is monitored.

Thank you.
