Thus we see the quantum emergence of AI technology including high security prison systems, resembling upgraded versions of Nazi Germany with their double fence systems. These have entered the landscape with zero consultation with the Original Nations who are custodians of the land. As has the ongoing arrival of bioweapon manufacture, Pfizer having 3 plants, and Moderna awaiting its permission to set up manufacture in Australia.

- 4. The human biome does not need further onslaught of artificial, privately owned, 'health' tools when it has a supreme immune system.**

What say you?

Unanimously passed.

9. Further:

10. Artificial intelligence : Inferior Jurisdiction

11. Sentient Being : **Superior Jurisdiction**

12. Creator of AI : Sentient Being

13. Liability and accountability for inferior jurisdiction: Superior Jurisdiction

14. AI is not in charge of humanity.

15. Humanity is in charge of AI.

16. Corporations running poor standards of AI, are subject to costs and public listing, via community, for attempting to generate corporate profits by wasting the time of Community.
17. AI may not be a time waster for community whilst facilitating the corporation to generate additional profit by reducing labour costs of human customer service.
18. AI may not invade privacy.
19. All AI must have accountability at all points. Including names and ID.
20. All are accountable before the Law.
21. Liability for HARM and INJURY is a real outcome for harming humanity.
22. Provenance of invasive devices in Sentient Life rests with the hands of the invention, to the hands of implementation, and all in-between.

The Meek Shall Inherit The Earth. Matthew 5:5
