If Humanity is the Custodian of Mother Earth...

...The Natural Creditor...

Why is Humanity paying for Inherent Essential Resources ??

When everything is already granted to us by

Creator Source Energy.

We exist in an inverted business model to provide large profit to a small group of people who have decided the **Human Herd** belongs to them.

The **farmer: Big Pharma**, has monetised every possible resource available: for their profit. Including your life force energy.

6. 50% of the Accounting is Hidden. By Who ??????

7. By accounting firms who have a large footprint on Planet Earth.

8. With the land of **Planet Earth** also disappearing into poorly executed 'Government Trusts', so ***Crown We The People of Superior Jurisdiction*** cannot make use of the land under traditional tribal bloodlines and tribal ways.
 - 8.1. For example: the Aboriginal Land Trust, Western Australia: established 2016: holding 22 million hectares of land, with only 12 of 70 required First Nation signatures on the 866 page document. And has absorbed lands to become the lessor with no Bill of Sale to First Nation who are literally still standing on their own Sovereign Land.
 - 8.2. **Reminder:** the Australian Government is not a ***Crown We The People of Superior Jurisdiction*** Government. It is a franchise arm of an unelected globalist private corporation, and uses the word 'Government' as a marketing tool to influence the greater population into believing it is something it is not.

 - 8.3.2. We are aware now that the accounting firms with the big foot print on the planet, are the ones holding the hidden Creditor accounting.
 - 8.3.3. KPMG has been named as a firm that; once involved with the land and Native Title, saw the land disappear into private trusts like the Aboriginal Land Trust. WA. 22 million hectares
 - 8.3.4. As this is the Restoration of the Creditor back into their rightful position of Custodian, firms like KPMG are beholden to making transparent the

Creditor Accounting.

8.3.5. What say you Jurors? Unanimous Yes.

8.3.6. Order #9.

8.3.7. Further and whereby First Nation individuals became lessees on their own land and the Australian Government - a private corporation, became the lessor. With potential inheritance to the next bloodline generation, lost by this conduct. The Kickett line in Henley Brook, is a perfect example of this.

8.3.8. This is blatant land theft.

8.3.9. Trusts like the Aboriginal Land Trust, holding **22 million hectares of land** are deemed **Null and Void**, due to poor execution, ie insufficient signatures 12/70: even six years later, and a gross imbalance of capacity to access legal advice in the creation of the Trust, whereby the Government side of the Trust had unlimited access to advice, paid for by **Crown:We The People of Superior Jurisdiction**, and the First Nation People would have had zero access to legal advice. 866 pages.

**What say you Jurors? The Aboriginal Land Trust is Null and Void?
Unanimous Yes.**

9. To correct the record, and honour **Trust Law**, and Lawful Due Process, those same accounting firms will ensure all **essential resources** are repurposed to be able to cope with **'set-off'**.
10. That is: The **'set-off'** of the alleged debtor invoice against the **Creditor Trust Account**. So **Crown We The People of Superior Jurisdiction** can keep track of what resources have been used, and if the accounting departments are recording that accurately. **Crown We The People of Superior Jurisdiction** like to keep track of the resources we are Custodian of.
11. All accounting will be made available for audit and transparency at quarterly intervals.
