7. Order #7 Assets

7.1. Within the realm of Lore, 'ownership' does not mean to literally own the Land as Lore knows that Mother Earth cannot be owned.

7.2. Ownership refers to a kinship to a given area.

7.3. Therefore it is improbable that one can be the recipient of large sums of money for mining deals, and then keep it hidden from others. And may include the following:

7.4. Assets included in a management takeover may be liquidated for equitable distribution of resources.

7.5. Or simply moved from one alleged ownership to another.

7.6. For example HSBC holding 515M shares, whilst Elders have zero shares may call, from Superior Jurisdiction, that a minimum of 51% of shares are moved into Community Trust accounts, with Elders and appropriate others signed on as Trustees.

7.7. The Living is always in Superior Jurisdiction to the Corporation; a dead entity.

7.8. Movement of assets may involve personal assets of any employees within the corporation, including houses, shares, cars, and all other items of resale value.

7.10. What say you Jurors?

7.11. Unanimous Yes.

8. Order #8. NAMECHEAP BOUNCING

8.1. A corporation that allows a tool to enter a clients life such as a bot alleging the email account is spamming, even when it isn't, and the bot leaves a trail of damage, such as bouncing emails for weeks beyond clarifying that no spam occurred, can incur damages of \$ 10 000 per day until resolved. Bots do not decide it is a spam email.

8.2. The corporation is not free to send articles about how to craft your emails so that the bot doesn't flag it.

11.2.It speaks only in the language of Acts, Statute and Legislation
which is the rule book of the corporations.

11.3.It must stop committing fraud and pretending it is Law and
pretending it governs the People.

11.4.It is a Public Servant at best. We own it. We paid for it.

11.5.It belongs to us.

11.6.And we are free to reinvent any systems we want, and discard
the rest.

11.7.What say you Jurors?

11.8.Unanimous Yes.

12.Order #12. Failure to educate Police. They are Policy Officer.

12.1.Police clearly work for the State.

12.6. And therefore work to support the objectives of the State, not of the People.

12.7. No Lawful Oath to serve the People has been taken.

replaced by an empty shell corporate entity, such as the
Department of Communities.

14.2. We did not give consent, therefore no authority is granted.

14.3. Using any instruments of the State to access resources does not
construe that consent has been granted to be under the
jurisdiction of the Acts, Statute and Legislation.

14.4. It simply means one needs access to their resources that have
been trapped behind these privately owned instruments.

14.5. What say you Jurors?

14.6. Unanimous Yes.

15. Order #15 Multiple Jurisdictions 1

15.1. In the matter of Applicant Michelmore vs Defendant Martin in the

15.4.It is not acceptable behaviour and an accurate moral compass would determine that.

15.5.And the Applicant may not enter the court 20 minutes early to discuss the matter with the court staff, thereby creating a conflict of interest in the hearing.

15.6.And have the Magistrate rule in favour of the Applicant who had already had bailiffs come to the premises to pick up \$10 000 worth of stock.

16.1. In a Supreme Court hearing, or any other hearing, the Judicial Officer is expected to understand what it means when the Executor and Beneficiary is at the table.

17.Order #17 Multiple Jurisdictions 3

17.1. In a Supreme Court matter *Michelmores vs Martin* the legal representative of the Applicant cannot dictate upon an offering of mediation what the defending side can and cannot do.

17.2. For example, it was said; they can only talk about the applicant's claim, but not about how she earned the alleged defamation.

17.3. Nor speak about Lore of LAWS, private Estates, Executor and Beneficiary.

17.4. This is an absurdity in Law, and a wilful intent by act of belligerence to perpetuate the Monopoly game.

17.5. After 13 hearings the applicant and her representative, and the Judge still claim they have no understanding of the jurisdiction of the Executor.

17.6. And still perpetuate the alleged binding of the Executor and Beneficiary to the privately owned Rules of the Supreme Court.

17.7. This is all fiction resulting in a failure of Lawful Due Process and potential Harm and Injury by being unable to see the entire case, only the sections of the case that serve the private legal system.

26.2. Unrealistic Response Times: Expecting replies within 1-2 hours is unfair for self-representing individuals with other commitments.

Response times need to be minimum of 21 days.

26.3. Short Notice for Court Appearances. Giving only 1-2 days' notice for court dates is inadequate and disruptive. A minimum of 21 days is required.

26.4. Lack of Timely Notifications. 21 days hours is required for all Notifications.

26.5. Receiving key documents hours before a hearing is incompetence and requires a minimum of 21 days Notice.

26.6. Email Overload is identified as a tactic, and is forbidden. Logical, practical, dot pointed email communication is required.

26.7. Overloading self-representing individuals with emails from opposing counsel is an unfair tactic. And is forbidden. All email must be as per the standards of the previous sub-order.

26.8. Financial Burden Without Compensation: Self-representing individuals lose income due to court appearances, and their time is not recognised like legal professionals, leading to significant financial strain. Therefore a disorganised Court system is identified as contributing to that. Eg: failing to see a counter claim that was filed in

March 2024, and it is still not acknowledged in September 2024, greatly delaying remedy. Reason for not acknowledging its format: However the Executor is not bound by the Rules of the Supreme Court, and just because format may not be as precise to the rules of the Court as it would like, the Executor is competent at filing sufficient content to support their position.

26.9. Unequal Consideration When Scheduling. It is observed that Court dates are often chosen based on the availability of judges and lawyers, but the availability of self-representing individuals is not given the same consideration. Once notified of days available, all matters should be scheduled in accordance with Executor availability.

26.10. Directors Representing Their Pty Ltd Business. As a Rule of the Supreme Court, it says Pty Ltd must be represented by a Legal Practitioner. This has proven to be a time consuming, highly expensive inefficient process when the Executor is perfectly poised to represent their own assets in a Court case. Directors should be allowed to represent their businesses in court, especially when there are only two directors. Attempts to win by default, claiming the company hasn't appeared, should be rejected when directors are present and capable of speaking for the business.

26.11. Inadequate Time to Review Extensive Paperwork. Giving self-representing individuals 2-3 hours to go through thousands of pages of documents is unreasonable. A lawyer would need days to review the same volume of paperwork, making such timeframes unfair and inadequate for proper case preparation. This needs to be adequately reflected in the process for the Executor. That is 21 days 9-5, of uninterrupted access if required.

26.12. Court costs are charged at \$500 per hour in Gold Bullion.

26.13. The Magistrate or Judge, or Registrar is instructed to open the Trust to make the payment.

26.14. What say you Jurors.

26.15. Unanimous Yes.
